PROFESSIONAL SUMMARY

Detail-oriented and adaptable Bachelor of Science in Information Technology graduate from Central Mindanao University with hands-on experience in frontend web development, PHP/Laravel application architecture, database administration, and UI prototyping. Proven track record of developing functional internal systems, including an automated employee Kiosk ID system during a 3-month internship at M. Montesclaros Enterprises Inc., and leading technical workshops in Microsoft Excel. Skilled in administrative tasks, data encoding, and virtual assistance. Committed to delivering reliable, high-quality technical and administrative solutions for forward-thinking organizations and clients.

TECHNICAL & PROFESSIONAL SKILLS

- Frontend Web Development:** HTML5, CSS3, JavaScript (ES6+), Bootstrap, Responsive Web Design, Cross-Browser Compatibility, UI/UX Prototyping
- Backend & Databases:** PHP, Laravel Framework, RESTful APIs, MySQL, Navicat, Database Schema Design & Administration
- Tools & Version Control:** Git, GitHub, Figma, Canva, VS Code
- Productivity & Office Suites:** Microsoft Excel (Advanced Formulas & Data Management), Word, PowerPoint, Google Workspace (Docs, Sheets, Slides)
- Virtual Assistance & Operations:** Data Encoding, Inventory Documentation, Records Management, Technical Training Facilitation, Customer/Admin Support

WORK EXPERIENCE

- IT Intern / On-the-Job Trainee** February 2025 – May 2025
M. Montesclaros Enterprises Inc. | Valencia City, Bukidnon, Philippines
- Engineered an automated employee Kiosk ID system, significantly accelerating credential processing speed for incoming and existing personnel.
 - Maintained comprehensive inventory logs of IT hardware, office equipment, and company assets with strict data accuracy.
 - Supported internal staff with hardware troubleshooting, operating system updates, and network diagnostics.
- Technical Training Facilitator – Microsoft Excel** January 2025
M. Montesclaros Farms Inc. in partnership with Central Mindanao University | Valencia City, Bukidnon
- Facilitated the Office Productivity Workshop Series focusing on intermediate-to-advanced Microsoft Excel techniques.
 - Guided corporate staff and attendees through practical exercises including spreadsheet formulas, data filtering, and automated reports.

KEY PROJECTS

- Web-Based Property Management System (Capstone Project)** August 2026
Client: Orowide Properties Corporation
- Architected and deployed a full-stack property management platform featuring user role permissions, property listings, reporting modules, and mapping capabilities.
 - Integrated a robust backend with PHP Laravel and MySQL, styled with responsive Bootstrap interfaces.

Employee Kiosk ID System

February 2025 – May 2025

Deployment: M. Montesclaros Enterprises Inc.

- Designed a self-service kiosk workflow enabling rapid credential verification and identification issuance.
